

DustScan

Dust Monitoring and Dust Consultancy Services

Price List - February 2012

Dust Monitoring Equipment

DustScan DS100 directional dust gauge (<i>includes mounting post, monitoring head, mounting cylinders, carrying flasks and rain guard</i>)	£250.00
DustScan DS100-D combined directional and depositional dust gauge (<i>includes DS100 components, DustDisc sample holder, bird-strike guard and DustDisc cases</i>)	£315.00
DustScan DustDisc dust settlement gauge (<i>includes DustDisc sample holder, bird-strike guard, 2 DustDisc cases and a 1.7m post or mounting brackets</i>)	From £110.00
DustScan DS100-F combined directional and Frisbee deposition gauge	£395.00
Spare / Replacement components	POA
Dust gauge rental (all models)	£50.00 / week

Standard Analysis and Reporting

Directional dust analysis & report - tabulated directional AAC% & EAC% data, dust roses & assessment matrix	£19.50
DustDisc deposition report - tabulated settlement AAC% & EAC% data	£16.50
NEW DustDisc gravimetric report - tabulated settlement AAC% & EAC% data and gravimetric mass (mg/m ² /day) data	£30.00
PM ₁₀ analysis & report - 7-day average gravimetric PM ₁₀ concentration	£40.00
Frisbee sample analysis & report - deposition rate of undissolved solids	£25.00

DustScan

Dust Monitoring and Dust Consultancy Services

Price List - February 2012

Consultancy / Gauge Installation Services

Expert equipment installation and on-site training (*subject to site location and prior agreement*). Price excludes mileage to and from site - £400.00 per day.

DustScan Ltd is an independent environmental consultancy. We design and implement dust monitoring schemes for operators, planners and regulators. We also undertake dust assessments for Environmental Impact Assessments (EIA), Dust Management Schemes (DMS), Dust Action Plans (DAP) and workplace investigations for industrial sites.

Expert Opinion / Consultancy rates £50.00 - £100.00 per hour.

Further Analysis and Reporting

AAC% or EAC% site dust detection plot, per batch (*Requires site drawing in .dxf or .dwg format. Subject to initial set-up fee of £75.00*) £25.00

Brief summary directional, PM₁₀, dust mass or optical microscopy report From £200.00

Site monitoring data summary - monthly, quarterly or annual directional dust and/or PM₁₀ or dust mass data for up to 5 gauges (*Additional interpretation at Consultancy Rates*) £250.00

Geochemical Analysis

We carry out detailed chemical analyses of dust and materials samples. We have developed new methods for laboratory analyses of directional dust samples in conjunction with industry and academic partners. Reports can be issued simply as tabulated data from specific analyses or as part of a comprehensive consultancy report. POA

Please contact us to discuss your specific requirements. Laboratory and reporting fees vary according to application.
